  - Built interactive dashboards in Power BI for real-time tracking of key metrics and performance trends.
  - Worked closely with the marketing team to analyze customer behavior and optimize strategies.
-

## EDUCATION

### Electronics and communication engineering

2017 – 2020

Vels university

Graduated with foundational knowledge in electronics systems, communication technology, and problem-solving skills.

### Google Data Analytics

2024 – 2024

Coursera

Comprehensive course covering data cleaning, analysis, visualization, and project-based learning.

---

## CERTIFICATIONS

- Certified Google AI , October 2024
- Certification in Azure Administration AZ-104, April 2023
- Certification in Azure Fundamentals AZ-900, March 2022

---

## Technical Projects

### Credit Card Spending Analysis in India

Kaggle – Data Project.

- Analyzed consumer spending patterns across different demographics using Python to gain insights into credit card usage in India.
- Performed data cleaning, wrangling, and visualization with Pandas, Matplotlib, and Seaborn to identify key trends in spending behavior.

### World Happiness Analysis

Kaggle – Data Project.

- Analyzed global happiness scores to identify correlations between happiness and factors such as GDP, life expectancy, and social support.
  - Cleaned and explored the dataset using Python and visualized insights with libraries like Matplotlib and Seaborn.
-
